Note
This consent form is to be issued by the Prospective supervisor.
The checks and reviews process for Security Export Control requires a certain amount of time (typically around two weeks, but it may take several months or more depending on the content), Applicants should request that their supervisors prepare the necessary documents well in advance. Please note that depending on the result of the check and review process, you may not receive the “Notice of the Acceptance”, in which case you will be unable to submit this form (and thus will be unable to proceed with your application). Furthermore, this procedure is solely an internal review within Kyoto University, and completion of this confirmation does not guarantee the issuance of an entry visa by the relevant government authorities. In certain cases, such as when specific regulatory restrictions apply, if a Certificate of Eligibility (COE) is not issued, or if the screening process for a COE is significantly prolonged, you may be denied admission even if you pass the entrance examination. Furthermore, even after enrollment, there may be restrictions placed on the educational programs, research guidance, or other academic activities you wish to pursue.

To the Prospective Supervisor,
Please submit the Pre-screening Sheet (Form1) for Accepting Foreigners, etc. (Students, Researchers, Visitors) to the Educational Affairs Division, Graduate School of Engineering, and then please issue this form and provide it to your applicant only after confirming that the required checks and reviews have been completed and that a “Notice of the Acceptance" has been received.
